Job Location
Saudi Arabia, Saudi Arabia, Saudi Arabia, Saudi Arabia

Date posted
September 20, 2025

Description

A BIM (Building Information Modeling) modeler is responsible to creates, manages, and maintains digital 3D models of infrastructure projects and other structures. These models contain detailed information about the projects design, construction, and performance, and are used throughout the projects life-cycle, from design and construction to operation and maintenance, and considered as a reference point throughout the construction process, allowing everyone involved to see exactly what needs to be done at any given time. Required Skills and Qualifications

- Bachelor’s degree in Civil engineering.
- 3+ years of experience in BIM modeling, with a strong portfolio of work
- Proficiency in Autodesk Revit and working knowledge of other BIM software programs, including Navisworks, Dynamo, and 3ds Max
- Ability to create 2D and 3D drawings
- Excellent communication and presentation skills
- Highly organized and detail oriented

Responsibilities

language: Bilingual English and arabic
